PROFESSIONAL SUMMARY

Environmental Studies senior graduating June 2026 with hands-on experience in environmental and science education for early childhood through high school audiences. Skilled in leading engaging outdoor learning experiences, and creating safe, inclusive, and curiosity-driven environments. Seeking to continue work in an outreach/educational role.

EDUCATION

Environmental Studies B.S., UC Santa Barbara
Graduation: June 2026
GPA: 3.88 ; *Dean's Honors College of Letters and Science*

EMPLOYMENT

Environmental Educator Orfalea Family Center - CCBER UCSB *JAN 2026 - PRESENT*

- Lead age appropriate educational walking field trips for students age 2-5 in small groups, teaching about local animals, insects, and ecosystems, while maintaining a fun and safe learning environment.

Undergraduate Research Assistant, Anderegg Lab, UC Santa Barbara *NOV 2023 - PRESENT*

- Solder Arduino based microprocessors, to create cost effective devices (sap flow sensors), that measure plant transpiration.
- Conducted research in Sequoia National Park for two consecutive field seasons, climbing trees up to 75 feet using USGS rigging systems, self-belay equipment, and pole pruners to collect samples for hydrological assessment, as well as taking various measurements for physiological analysis.
- Manage the lab's social media presence and create informative video content.

The Nature Conservancy - Outdoor Educator Dangermond Preserve *SEPT 2025 - DEC 2025*

- Lead field trips through the preserve with groups of 5-10 students G7 and high school, independently implementing curriculum about local flora and fauna.
- Ensured a safe learning environment and improvised learning opportunities to maintain groups attention.

REEF, UC Santa Barbara

Program Coordinator *DEC 2023 - JUNE 2024*

- Managed the schedules of over 30 staffers, and ran weekly meetings with structured agendas and outcomes.
- Handled all initial communications with organizations that visit the REEF, totaling 15,000 annual visitors.
- Generated annual reports, and managed databases using Excel/Google Sheets.

Science Educator *APR 2023 - DEC 2023*

- Developed and implemented engaging and interactive educational programs about local marine ecosystems for visitors in groups of 10-30.
- Simplified complex topics to communicate research effectively to visitors.

SKILLS

Microsoft Suite	Science communication	Field Work
Early childhood education	CPR	Soldering

Additional Experience

Alameda Arts - after school educator for 4 years throughout high school K-5
Galileo Learning - Camp counselor for STEM based curriculum K-6
